Create the Life you Want!

Make 2009 your best year ever in spite of the economy!

Whether you realize it or not, your own thoughts and beliefs are keeping you from having the things you want in life. Whether learned through traumatic events, unsupportive and negative people around you, or poor teachers and role models, you have learned how **not** to succeed. You may have poor health, failing relationships and/or financial hardship, ALL of which are indicators of an imbalance in your energy system which can be remedied by learning some simple tools and applying them to a formula for success that you can easily master.

I offer affordable healing / coaching sessions for individuals and groups which can put you on a fast track to success and all the abundance you could ever imagine in every area of your life. For you do-it-yourselfers, I also offer a workbook that outlines **The Secret Formula**, allowing you to plug in your own situation and create your specific desired outcome whether it be a loving relationship, financial wealth and/or ultimate health and well-being.

"Using this process I have manifested the man of my dreams, quit my job, and created a business doing what I love! In the past 6 months, I've traveled to many exotic places and experienced abundance I would've never dreamed possible. Best of all, my heart is filled with joy and contentment when all I knew before was fear, insecurity and depression. " -Michelle

"I want you to know that the Bright Future Workbook is having a profound effect on my life. Besides benefiting from the exercises, it seems that reading your material has helped me open up to the Universe as I never imagined I could possibly do again. AND although I've used some of your processes for several years, it's working for me like never before. Let me thank you for making all of this possible. Your material is beyond fantastic! :o)" - Sue

"I am a trained doctoral level therapist who has used cognitive behavioral therapy for years with patients, and yet your system seems to be the easiest, most sane, logical and least trendy or gimmicky system I have found and am so excited about what it can do for my patients but most of all (selfishly) for myself and I am forever grateful." -Lynne
